

Research-Creation Project

Option 1: Cyborg Storytelling using Augmented Reality

Group #: _____

Student 1: _____ Student 2: _____

Student 3: _____ Student 4: _____

Instructions

As a group, assign a score for each of the following categories. Use the criteria from the project rubric justifying your decisions.

	■ Excellent	■ Good – Adequate	■ Some effort	■ Insufficient
Critical Engagement in individual report	Insightful and well-written. Strong connection to chosen theme (e.g., cyborg theory, BIPOC futurism) and thoughtful integration into the creative work.	Solid understanding of the theme. Clear effort to connect research to project, with some originality.	Basic understanding of the theme. Limited analysis or unclear connection to the creative outcome.	Vague, incomplete, or disconnected from course themes. May lack citations or clarity.
Why did you give yourself this score? (3–4 lines)				
What is one thing you feel was missing or unclear in your collective written analyses that you would improve if you had more time?				

	■ Excellent	■ Good – Adequate	■ Some effort	■ Insufficient
Final AR Storybook (Pictarize Project)	Fully implemented. Functional, polished, and cohesive. All sections flow together as a complete interactive experience.	Mostly complete and functional. Some technical or structural inconsistencies.	Incomplete or uneven. Some content or technical elements missing or underdeveloped.	Major issues. Inaccessible, unclear, or not submitted.
Why did you give yourself this score? (3–4 lines)				
What is one technical, structural, or design element in your AR storybook that could be improved or made more cohesive?				

	■ Excellent	■ Good – Adequate	■ Some effort	■ Insufficient
Visual and Narrative Integration (Analogue + Digital Media)	Excellent synergy between analogue visuals and digital layers. Strong conceptual alignment and narrative clarity.	Analogue and digital components are mostly connected. Story or message is understandable.	Disjointed or underdeveloped. Visuals and overlays feel separate or unrelated.	Poor or missing integration. Concept unclear or execution incomplete
Why did you give yourself this score? (3–4 lines)				
What is one aspect that could be improved, expanded, or made clearer in the way your analogue and digital materials work together?
